Recommendation

Our company, A T Labs is one the beneficiaries of Mr. Silviu Runceanu's services. Our demarche to externalize certain web services has entailed our collaboration for the development of company identity on the Internet for many of our clients and even for us.

The services offered by Mr. Runceanu, who supported and encouraged us from the very beginning, were always at the highest degree of quality and professionalism.

The promptness with which all of our requests have been met, the correct and clear way in which we succeeded and in which we received feedback to all our demands, this is what convinced us that we can always rely on the services provided by him.

The modesty and professionalism proven by Mr. Runceanu determined us to recommend him to all those who show an interest for quality services at a fair price.

Mitrut Stanoiu
A T Labs SRL
